Asteron Life

Application

Guide to completing this application form

- We need a separate application form completed for each adult life that is to be insured. Each adult life accepted for cover will be issued a separate policy.
- Most of this application needs to be read and completed by the person who is going to be insured. However, there are some sections that the policy owner needs to answer, and these are clearly marked.
- When we refer to 'you' in this form, we mean the person to be insured unless we note otherwise.
- When completing this application, please write in pen and use **BLOCK letters**.

What parts of the form do you need to complete?

There are three parts to this application form. You will only need to complete part 2, your adviser will complete parts 1 and 3.

You should complete this application personally, but if your financial adviser completes this form on your behalf using the information you have provided, you must read all the questions and answers carefully before signing the declaration at the end.

To help you complete this application you will need:

- Information relating to your existing or previous life insurance.
- Details of your medical history including medications and recent test results, your height and weight, smoking status, and alcohol consumption.
- Information relating to your occupation, travel, and pursuits.
- Your doctor's name, the name of the practice, and address details.
- Your payment details.

We may need additional medical or financial information to assess your application due to your medical history or the amount of cover you have requested. Your adviser will let you know if this applies to you.

Genetic testing

As part of this application, you must tell us if you are having treatment for or are experiencing symptoms of a condition that may be genetic. We will also ask you about your family history and if there are any medical conditions that run in your family for which screening has been offered.

Regarding genetic tests, Asteron Life will never:

- ask or incentivise you to have a genetic test
- ask you or your doctor for the result of a genetic test if the test was part of medical research and the result will not be disclosed to you
- ask you or your doctor for the results of a genetic test that is not your own individual test, such as a close relative's genetic test results.

Why accurate information matters to us

To run an insurance business that is here for the long term, we need to predict what our future expenses will be so that we can minimise premiums, pay valid claims, meet the costs of running our business, and encourage investment in our future. It is very important that you provide us with accurate information to help us assess the likelihood and potential cost of future claims under your policy.

Your duty of disclosure

Please read carefully

You have a duty to disclose to us all information about you, your personal circumstances and history to allow us to accurately assess the insurance we can provide to you. This is **material** information relevant to your application for insurance. **Material** information is information that might influence our decision to insure you and the terms and amount of premium of your insurance policy.

The information you need to tell us depends on what you are applying for. Typically, it includes information about your background, occupation, medical history and current health, personal habits and finances. There may be other types of **material** information about you which should also be disclosed. It is important that you tell us even if you have separately discussed something with your financial adviser.

You meet your duty of disclosure by providing us with complete and correct answers to all the questions that we ask, and by telling us anything else that might be **material**, even if we don't specifically ask you about it.

It is important that you answer all questions accurately in the application form, even if you need to go away and find the information from other sources.

This application for insurance forms part of your proposed insurance contract. The person to be insured and the policy owner(s) must answer all the questions asked of them accurately and disclose all **material** information, whether asked for in the application form or not.

The person to be insured and the policy owner(s) must also tell Asteron Life of any change in circumstances that is material to the application from the time the application form is submitted until the commencement date of the insurance policy. This duty of disclosure also applies if in future you ask to extend or alter the policy or ask to reinstate it if it lapses for non-payment of premiums.

Risks to you from non-disclosure

If you don't provide us with accurate or complete information, even if you accidentally provide inaccurate information, you may be affected in the following ways:

- Claims that you make under the policy may not be paid.
- Your insurance policy may be cancelled or treated as if it never existed.
- You may not be able to obtain other insurance in the future.
- You could experience other financial hardship.

If you are unsure about whether you should disclose something it is always safer to include it in your application form or call our Customer Service Team on 0800 737 101 to check.

Replacement Business Risks

Although there may be good reasons for replacing an existing life insurance policy, you should also be aware of risks that may arise when doing so.

- Benefits that you might have received under the existing policy may not be covered by the new policy.
- Initial premiums in the new policy may appear lower but be higher over the long term.
- Exclusions, limitations or increased premium in the new policy due to changes in health, lifestyle or occupation that have occurred since the existing policy was taken out.
- Wait periods for benefits under the new policy which had already elapsed under the existing policy.
- Non-disclosure may reduce claims payable or result in the new policy being treated as if it never existed.

Your financial adviser should be able to provide you with an analysis of these risks and ways to manage them.

The maximum we will pay under this temporary cover, and any other temporary cover that you hold with us, in respect of any one event is the lesser of the sum applied for in the application or the following cover type limits:

Cover type	Maximum payable
Life	$500,000
Trauma	$500,000
Total and Permanent Disablement (TPD)	$500,000
Income Protection, Workability, and Mortgage and Living	$2,500 per month
Business Disability, Business Expenses, Farmers Disability	$2,500 per month
We Pay Your Premiums	$100 per month

Where you suffer injury or illness giving rise to a claim under this temporary cover, this may be taken into account in our assessment of your application and whether to provide you with cover and on what terms.
